**Tax checks due**

Homeowners or renters expecting property tax relief checks in October should make sure now that the Department of Revenue has their current, correct addresses.

Checks will be sent to the address listed on the refund form 70-R filed with the department unless a taxpayer has already notified the department of an address change.

Address changes must be received by the Department of Revenue by August 7 to be placed on the corrected mailing list. Mail address corrections to Refund, P.O. Box 14700, Salem, OR. 97310 or telephone corrections by calling the department's toll-free statewide number, 1-800-2838.

People with address changes after the August 7 deadline should notify the Post Office and the Department of Revenue. If the check is returned, it can be sent out again using the new address.

**Program to close doors**

Only a remnant will remain when the School of Librarianship departs at the end of summer term. According to Gary Ferrington of the College of Education, the last vestige will be an educational media endorsement offered only through the college of Education.

The closure of the School of Librarianship was a sacrifice to the need to maintain the overall quality of education at the University, Pres. William Boyd has explained.

Boyd decided, on advice, to cut the School of Librarianship because "of the surplus of unemployed librarians in the state." Boyd's decision to approve the librarianship school cut was one measure taken in an overall budget trimming process.

The 21-credit hour program, culminating in a basic certificate, is directed toward students seeking to qualify for employment as public school media specialists and librarians.

A brochure describing the program in greater detail can be picked up at the Secondary Education offices in room 126 of the Education building.

**New director named**

Alice Carnes, chairer of the Department of Education at the Field Museum of Natural History in Chicago, has been named as the new director of the University's Museum of Natural History.

Carnes will be responsible for coordinating public education programs in natural history. She will also help plan and develop a new University museum facility in Eugene's Alton Baker Park, working with the Cooperative Science Museum Commission.

Carnes has headed one of the

nation's top museum-education programs in her work at the Field Museum.

Her appointment is effective today. She will hold academic rank as associate professor on a three-year fixed-term appointment and will earn \$28,500.

The new director holds her B.A. degree from the University of Rochester; M.A.T. degree from Harvard University; and Ph.D. in education from the University of Chicago.

Feet in the sand make footprints.  
Feet in Birkenstock footwear do the very same thing.  
The Birkenstock footbed is heat and pressure sensitive, to mold to your foot, and become your footprint.

So walking in Birkenstock is a lot like walking barefoot in the sand, with one very convenient difference.  
You can walk in Birkenstock all year long.
