## IT SOUNDS LIKE A LIVE CONCERT

JVC  
ONKYO  
INFINITY

now only  
**\$749<sup>95</sup>**

This is Randy, the managers choice. And he's really particular about his music.

What a combination of world favorites. Powerful and a superb performance from the excitingly new Onkyo TX-2500 II stereo receiver. And the turntable by JVC features the most advanced technology. Quartz locked design developed by JVC direct-drive, servo-loop and much more. The dynamic feeling of electricity in the air provided by the awesome technology of the Infinity Qa speaker system puts you right there!"

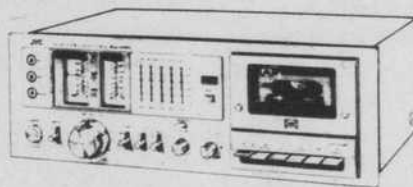

"IT WAS AS CLOSE TO A STUDIO  
PERFORMANCE AS IT COULD GET"

Barry Manilow

"I didn't think any stereo manufacturer could compete with the kind of quality I'm used to. When I brought my work tapes home from the studio and played them on JVC equipment, it was as close to a studio performance as I could get."

- Sen-Alloy heads
- Spectro-Peak LED's
- Accurate Meters
- Super ANRS noise reduction
- 2-Gap erase head
- Independent drive
- Full-logic

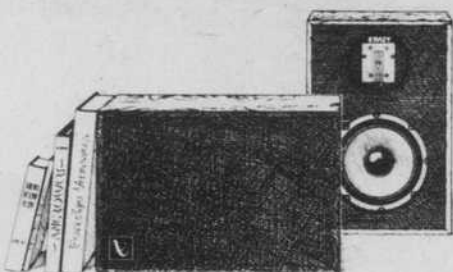

JVC  
KD-65

ONLY  
**\$399.95**

Why lust after Infinity's  
\$6500 QRS when you can  
take home their  
\$105 Qe?

Infinity

Infinity's bigger, more expensive speakers - even the \$6500 QRS - all get their beautifully realistic high frequencies from the exclusive EMIT™ Electro-magnetic Induction Tweeter.

So does the bookshelf Qe. And it's remarkably responsive Q-woofer™ is a worthy partner. Come hear the Qe recreate the sound of live music. Accurate? Exactly.

## INTRODUCE YOURSELF TO THE WORLD OF HI-FIDELITY

EMPIRE

What a surprise you're in for on this one! Priced too low to sound good, right? WRONG! It sounds GREAT. How did we do it? Volume buying, extensive research, and a little black magic.

A great little system from Apollo, Superscope and BSR. True Hi-Fidelity sound at super savings.

APOLLO  
**\$299<sup>95</sup>**
