

"I used to get the greasies between shampoos."

New Agrée Shampoo helps stop the greasies between shampoos.

The "greasies" — that's oily, dirty hair too soon after shampooing. This problem is common with all types of hair. It is usually caused by the build up of excess oil on your scalp that quickly spreads throughout your hair.

Agree's formula gently cleans the greasies from hair and scalp.

After three years of laboratory development, a remarkable formula was discovered. One which excels in its ability

to gently clean both hair and scalp of oil and dirt. Even better than most leading shampoos.

Agree keeps your hair cleaner longer.

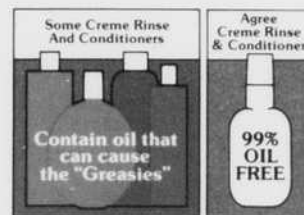

Because Agree Shampoo cleans both hair and scalp, your hair stays cleaner longer and looks terrific longer.

Agree preferred over many leading shampoos.

The Agree Shampoo formula was extensively tested. In several tests, women throughout the United States were asked to evaluate Agree's performance. The results were impressive. When compared to all leading shampoos tested, Agree was unsurpassed in overall performance. In fact, Agree was preferred over the leading baby shampoo, the leading pH shampoo, the leading balsam and protein shampoo, and the original herbal shampoo. Altogether thousands of women participated.

ANOTHER SUGGESTION:

Use Agree Creme Rinse and Conditioner.

If you use a creme rinse and conditioner on your hair, don't use one with a lot of oil. It can cause the greasies. Agree Creme Rinse and Conditioner actually helps stop the greasies because it's 99% oil free. Plus Agree gives you excellent wet combing and great conditioning.

The people of the Hair Care Laboratories, Personal Care Division of Johnson Wax, believe Agree is the finest shampoo available in either salons or retail stores. Try Agree Shampoo for yourself.

"With Agree Shampoo, I don't have to worry about the greasies between shampoos."
