

Carter battles inflation with new weapons

WASHINGTON (AP) — President Carter takes his new anti-inflation program to the American public Tuesday night and already business, labor and consumer groups are telling him it will not work.

The program, to be unveiled in a nationwide broadcast at 10 p.m. EDT, includes voluntary limits on wages and prices. They would be enforced by some new government weapons, administration sources say.

Carter's program would set a 7 percent limit on wages and fringe benefits. The price formula is more complicated but is aimed at holding increases to 5 1/4 percent a year.

The government plans to use sanctions to enforce the guidelines, such as possibly withholding federal contracts to firms which do not comply with them, and allowing more imports, sources said.

At a news conference Monday, spokesmen for some consumer groups said the main solution to the inflation program is to diminish the control over the economy exercised by big business.

"Business control over the marketplace and government economic policies may be too hot for the Carter administration to handle," said consumer advocate Ralph Nader.

The president of the Machinists Union, who regularly criticizes government policy, said the anti-inflation program will fail unless it stops "unbridled corporate power."

Last week, AFL-CIO President George Meany criticized voluntary wage-price guidelines as unfair to labor, arguing that it is easier to control wages than prices.

making the news

From Associated Press reports

AUGUSTA, Maine — Maine's top leaders agreed Monday to accept an out-of-court settlement that would provide two Indian tribes with \$27 million and 100,000 acres of land — less than one-half percent of the state's total land area.

If the tribes and Congress go along, the compromise plan would settle one of the largest Indian land cases in the nation for a fraction of the Indians' original claim of \$25 billion and 12.5 million acres.

The land that would be turned over to the Indians is about the size of Memphis, Tenn.

On the other hand, the Penobscot and Passamaquoddy tribes, numbering fewer than 4,000 members, would get a large portion of Maine woodland without ever proving their case in the courts.

President Carter personally approved the deal last week in a telephone conversation with Sen. William Hathaway.

CAIRO — Egypt asked for "modifications" Monday in the proposed peace treaty with Israel, apparently dissatisfied with the weak link the draft document makes between the Palestinian issue and an Egyptian-Israeli settlement.

In Jerusalem, meanwhile, Prime Minister Menachem Begin convened the Israeli cabinet to consider the treaty proposals in what was expected to be a long and fiery secret session lasting well into the night.

Foreign Minister Moshe Dayan and the other Israeli negotiators at the Washington peace talks with Egypt had resisted putting "linkage" language in the proposed treaty, wording that would make the Israeli-Egyptian peace in some way dependent on progress toward settling the issues of the Israeli-occupied West Bank and Gaza Strip and the political future of the Palestinians living there.

MOSCOW — U.S. and Soviet negotiators failed Monday night to limit strategic weapons, complicating prospects for a signed accord or a presidential summit before the end of the year.

The next step in the drive by the two nuclear powers to restrain the arms race was not made clear as the talks ended at the Kremlin with Soviet President Leonid Brezhnev at the bargaining table.

Here's how to eliminate 18 hours of study time each week.

If your study technique is typical, you spend 26 hours each week buried in your books. 66-2/3% of this study time is wasted on an antiquated set of procedures. Procedures that have remained unchanged for over a hundred years.

What's worse, you presume there is nothing you can do to improve. The prevailing attitude on campus is "You either have it or you don't!"

What nonsense!

Any student with average intelligence can improve his reading and study skills at least 3 times with a) better techniques, b) expert coaching, and c) controlled practice. And he can do it quickly—in time to dramatically increase his grades in the current semester.

For this is precisely what the Evelyn Wood course offers, and backs it up with an iron-clad, no-nonsense, written guarantee.

THE GUARANTEE

Any student who attends every Evelyn Wood class, completes the required practice, yet does not improve reading and study skills at least 3 times will be eligible to receive a full tuition refund.

Over 1,000,000 Graduates Over 95% SUCCESS!

Since 1959, three Presidents have invited Evelyn Wood instructors to teach their staffs how to read better. All in all, the list of famous graduates reads like Who's Who:

Hugh Alexander, U.S. Congress	Charlton Heston, Actor	Gaylord Nelson, U.S. Congress
Birch Bayh, U.S. Congress	Daniel K. Inouye, U.S. Congress	Julie Newmar, Actress
Jackson Betts, U.S. Congress	Edward Kennedy, U.S. Congress	William Proxmire, U.S. Congress
Daniel Brewster, U.S. Congress	David S. King, U.S. Congress	Abraham Ribicoff, U.S. Congress
Allan Cranston, U.S. Congress	Burt Lancaster, Actor	Herman Scheebil, U.S. Congress
John Dingell, U.S. Congress	Thomas J. McIntyre, Actor	George Segal, Actor
Madame Gandhi, India	Marshall McLuhan, Writer	Al Ulman, U.S. Congress
John Glenn, U.S. Congress	Joseph M. Montoya, U.S. Congress	J. Irving Whalley, U.S. Congress

Why Do So Many Students Enroll?

This question was posed to several thousand college freshmen who had just enrolled in the

Evelyn Wood course. The answers were varied, but mostly on the same wave length: 1) They wanted to reduce their study time; 2) They wanted to feel more confident in class, more in control; and 3) They wanted to learn more, to achieve better grades.

At the end of the course, each student was asked if his goals were met. Over 95% said yes. The other 5% received their tuition back.

Why Do Most Students Read Slowly?

Most students have no idea what their reading ability is. If they are typical, they read about 300 words per minute (or one page of a novel). Why is it that students read at virtually the same speed, considering how very different they all are?

The cause can be traced back to the First Grade. When we were taught to read, we were asked to read out loud, word-by-word. Later, in the Second Grade, we were asked to stop saying each word out loud. But we never really did. Fact is, you're saying these words right now—not out loud, but to yourself, one word at a time!

This means you read only as fast as you talk—about 250 to 300 words per minute. (As if to prove the point, Guinness's Book of World Records lists John F. Kennedy as delivering the fastest speech ever at 327 words per minute).

How Do You Learn To Read Faster? With The Same Comprehension?

At the Mini-Lesson you will find out how the Evelyn Wood course eliminates the habit of reading only one word at a time. How you can learn to read 3 or 4 words instead of only one. To see how natural this is, look at the dot in the middle of this phrase:

the grass · is green

Try as you may you can't help but see the other words. With training, you learn to use this natural, but un-used potential. You learn to see groups of words simultaneously. This will double, triple, possibly quadruple your present ability.

This concept is diametrically opposed to the

old-fashioned speed reading technique of picking out key phrases. In the Evelyn Wood course, skimming is a dirty word!

The PRICE BOILS DOWN TO \$2 AN HOUR.

Read what the University of Illinois student paper said (Ed Sejud): "If a student avails himself of all the facilities by the (Evelyn Wood) Institute and attends all the class sessions, the price boils down to only about \$2 an hour, cheaper than any private tutoring you'll ever find. Spread over four years, the course can save thousands of study hours and can probably affect a boost in a student's grade-point average. Assignments which once took days can be accomplished in a matter of hours, leaving much more time for other pursuits. The Institute estimates that it can save average students 350 hours of study time each semester—probably an understatement."

Don't take anybody's word for it—not ours, not anybody's. We developed the Mini-Lesson so you could make up your own mind about the course. The Mini-Lesson lasts only 1 hour. During that short time, you have a chance to try your hand at it—to find out if it really can do the job for you. In 60 minutes over 80% of the audience increases reading speed. Just a little, but enough to know what it's like. At the Mini-Lesson you will find out how the Evelyn Wood technique handles difficult textbook material. How it improves memory and concentration. How it makes reading a pleasure instead of a chore. Let's face it, if the Evelyn Wood course is for real, you ought to know about it.
