

Hockey team downs Willamette—again

Apparently, playing their home games on Autzen Stadium's Astroturf agrees with the field hockey team. The Ducks ran, not walked, over Willamette last night, 10-0.

Two weeks ago, Oregon beat Willamette on the latter's grass field in Salem, 5-1.

Ronnie DellaMotta and Stacy Allman each scored twice, while Bindy Stillwell had one goal and three assists.

Also scoring for Oregon were Cathy McCullough, Lynn Manildi, Nancy Pedrotti, Sue Ferguson and Sue Minkema.

Coach Nancy Plantz could find few faults with the team's effort. "We really played together and passed extremely well. On Astroturf we're able to use our speed to a greater advantage than on grass."

Plantz complimented De-

llaMotta, the freshman from Pennsylvania. "Ronnie probably had her best game tonight." After pausing, she said, "We're better than we were two weeks ago."

All 24 players saw action for Oregon, now 11-2-1.

The team hosts Pacific Lutheran Friday at 4 p.m. at South Eugene High School. Saturday, Washington State visits, the match to be played at Autzen Stadium at 10:30 a.m.

Blazers outshoot Bullets

The Portland Trailblazers handed the Washington Bullets their first loss of the season, 104-102 last night in Portland.

Rookie forward Mychal Thompson led the Blazers with 29 points, while helping to hold Washington's Elvin Hayes to eight points.

In his first game since his

broken leg last year, Bob Gross played 26 minutes and scored four points.

Portland led throughout, with a 61-51 lead at halftime, and a 85-75 lead after three quarters. Washington scored eight quick points early in the fourth quarter, and the game remained close until the end.

What's happening

Oct. 25
Outdoor program kayaking at Willamalane Pool 10:30 p.m.

Oct. 26
Outdoor program meeting for Duffy Lake trip in EMU 7 p.m.

You're wasting your time reading this newspaper.

Not because it's not worth reading. You're wasting your time because you could be reading it three to ten times faster than you are right now.

That's right — three to ten times faster. With better concentration, understanding, and recall.

The problem is, most of us haven't learned anything new about reading since we were 10 years old. So we're still stumbling along at a fraction of our real capacity. In fact, most people read so slowly that their brain actually gets bored and distracted between words (no wonder you have trouble concentrating when you read!)

The new Evelyn Wood RD2 reading program.

Over 20 years ago, Evelyn Wood's research with natural speed readers discovered reading techniques that could be learned and used by virtually anyone. Since that pioneering work, over a million people — from students to presidents — have put the Evelyn Wood method to work for them.

RD2 is Evelyn Wood's latest, updated

reading improvement system — designed to be more effective and flexible than ever. With it, you should easily be able to cut your reading and study time by at least two thirds. That means if you're now studying 20 hours a week, you'll save roughly 400 hours — or almost 17 full 24 hour days — in this school year alone!

Spend an hour and check us out.

We know you may have trouble believing what you've just read. That's why our people are on campus now giving free 1 hour demonstrations of RD2. If you can spare an hour, we'll answer any questions you may have about RD2, and prove that you can unlearn your bad reading habits and start saving two thirds of your study time. We'll even demonstrate some new reading techniques designed to increase your speed immediately, with good comprehension.

This short demonstration could start you on your way to better grades, more free time, and a whole new outlook on studying.

It only takes an hour, and it's free. Don't miss it.

Attend a free 1-hour RD2 demonstration this week:
