NOW SHOWING

ENTER STAGE LEFT

No matter what era in which a young person comes of age, being a teenager is a drag. Adults tell teenagers to think for themselves. But when they do, it seems the adults don't approve. Teenagers want to express themselves freely, but there are always invisible barriers.

Stage Left is a teenage theater group that wants to break through those barriers. To do so, they have broken away from what used to be called "The Establishment." Toes may have been stepped on in the process, but along the way this group may have created a realistic and entertaining play dealing with that dreadful condition of acne and insecurity — adolescence. Please turn to **Page 4B**.
