

ASUO ENERGY TIP

of the week:

Conserve Fuel

- Eliminate unnecessary trips
- Drive at a steady pace - avoid stop and go traffic
- Check tire pressure regularly. Under-inflated tires increase gas use
- Remove unnecessary weight from car
- Use public transportation, a motor cycle, a moped, a bicycle, or walk to work
- Observe the 55 mph speed limit - you'll get 20% more miles per gallon

October is International Energy Conservation Month. Please do your part.

Free resume writing workshops and free job interview skill workshops are also offered. Arrangements for handicapped students are available by calling 686-3235.

The Intel Notebook

Careers and Technology at Intel

The Microelectronics Revolution— and how you can be part of it.

See us on campus October 25.

Intel is the acknowledged leader in four major product areas: semiconductor memories, microprocessors, micro-computer systems, and memory systems. And we're extending our leadership into data-base management.

We have career opportunities available at any of our four great locations—California, Oregon, Arizona, or Texas—in:

- Engineering—design, manufacturing, and fabrication development
- Technical Marketing
- Production Management and Planning
- Finance

If you want to be part of the emerging microelectronics revolution, and are about to receive a degree in engineering, computer science, solid state physics, or chemical engineering, we'd like to talk with you. If you haven't already signed up to see us on campus, feel free to leave your resume with one of our representatives during our visit. Or write to any of our locations:

California
