THE LITTLE PRINCE

Directed by Stanley Donen and starring Gene Wilder and Richard Kiley. Based on the story by Antoine de Saint-Exupery, this delightful musical fable is well on its way to becoming a cult classic. The story begins when a pilot makes a forced landing in the Sahara Desert, where he meets a "little" prince from the planet Asteroid B-612. The prince tells the pilot about his planet-hopping journeys, but it isn't until he comes to Earth that the Little Prince learns the secrets of the importance of life from a Fox, a Snake, and the pilot.
