

ASUO Elections

given me the experience and leadership qualities needed to work effectively on SUAB.

SUAB, although not always a familiar name to many U. of O. students, is a very vital part of the University political system.

As your political science representative on SUAB, I will see to it that the various needs, and rights of the students are listened to and fought for.

A responsible and effective leader is needed to fill the Political Science position. I am that leader. As your representative for position 13. I will do my part to make and keep the University of Oregon's Student Government effective.

Paul Rudinsky

Picture this; you're a quarter mile out to sea atop your favorite surfboard. Suddenly your eyes bulge. Looming on the horizon is a dark swell of water already crowned with white foam. Wasting no time you wheel around, flop to your belly, dig deep with your palms and go for it. One stroke and you're on your feet. you take the elevator drop to the trough, bottom turn, then roller-coaster a track

high within the innards of the aqua monster.

As a surfer used his past experience to thrash through the water, my skills learned from 2 years student council and President of Junior Achievement will enable me to make S.U.A.B. what it really is intended to be — a voice of the students. This will be accomplished by listening more attentively to your suggestions concerning policies and budgets. For example, we are facing a drastic budget cut that could eliminate 3000 students, 25 teachers and drastically increase our tuition. If elected, I intend to try every way to stop these proposals.

Again, like a surfer waiting for a big wave, a senator must also be able to rise to the challenge. He must have the effort, time, and patience to do a good job. I have these qualities and more — desire and ambition. Cast your ballot for the student body. Vote for "Rudy".

EMU Board

(4 positions open)

Bob Needham and Chris Little

The University is facing difficult financial times ahead. Strong student control through the exercise of fiscal respon-

sibility in all areas of the University is essential. The EMU is one area which has escaped close scrutiny and sharp edge of the fiscal knife.

Many good programs may suffer as a result of the mismanagement of others. One program in particular has run a deficit for fifteen years! Program priorities must be re-evaluated and those which are unable to run in the black must be trimmed or eliminated.

As past practice has shown, this cannot be left to the EMU Director. It can only be accomplished through a strong student EMU Board. Chris Little and I, Bob Needham, have decided to join forces in this election as the first step toward that goal.

Chris is a political science major and co-founder of Pi Kappa Pi fraternity. He has worked in a congressional office and will bring important organizational skills to the position. I am a law student and possess much needed expertise and commitment essential to the job. Together we can provide effective management by directing EMU policies in the interest of the student-body at large.

Mike Lehman

Fellow students:

Experience in EMU Board affairs and a responsiveness to your needs are assets which I hope will warrant your support for my election to the Board.

Having been appointed to the EMU Board this winter, I would enter the elected term with over one term's experience. Thus far I have been initiated to basic allocation of money issues (as seen with the Child Care Center) and to budgetary problems such as making several revenue areas more self-sufficient. Establishing working relationships with administrators and students both within and outside the EMU adds

another dimension to my effectiveness next Fall.

Goals and objectives of the EMU Board focus on guiding the Union's daily and long term operations, as well as making general policy decisions. I would like to ensure that the needs of the student population are met, recognizing all segments of the University.

Oregon Student Public Interest Research Group

(6 positions open)

Michael

Matteucci

My goal as a local board member of OSPIRG (Oregon Student Public Interest Research Group), is to work with students in voicing their concerns on issues which affect them as members of the Eugene/Springfield community. In our complex society I believe the individual's influence is most powerful through group action. All students support financially the different campus groups through their tuition costs. Presently, few students are taking advantage of OSPIRG's resources.

My education is community service will aid me in coordinating programs within OSPIRG which will benefit the student body and increase student involvement. I would appreciate your vote on April 22nd and April 23rd for the OSPIRG local board.
