**THE RETURN OF THE SECAUSCUS 7**  
Rarely does an independent American film receive such attention and praise as Secaucus 7, making just about every "10 best" film list of 1980 in the nation. In his directional debut, 30-year-old John Sayles has fashioned a highly personal, perfectly realized film about the reunion of old friends, former political activists of the 60's who are now turning 30. They reminisce, play together, make love, talk about making love, re-define their relationships and try to come to grips with the future while at the same time holding on to their experiences of the past. The naturalness of cast is irresistible. Make way to discover these important new talents.
