

Senate approves anti-abortion bill

WASHINGTON (AP) — The Senate voted 52-43 Thursday to eliminate incest and rape as grounds for an abortion under the federal Medicaid program. The measure would allow the government to pay for the operation only if the woman's life is threatened.

The House already has approved the tougher standard.

Union boss Williams called mole

WASHINGTON (AP) — Senate investigators described interim Teamsters president Roy Williams on Thursday as an "organized crime mole" who was groomed by mob bosses to take over the union and run it for their benefit.

Williams also was accused of sharing in the illicit skimming of Las Vegas, Nev., casino cash.

Williams could not be reached immediately for comment. He said last week that "I'm done talking about any of this so-called connection with organized crime."

In Las Vegas, Teamsters spokesman Duke Zeller declined to respond to the Senate allegations.

Repeated efforts to reach Williams and his attorney for comment remained unsuccessful at the day's end.

Williams and other Teamsters officials were in Las Vegas to prepare for the union's annual convention.

Williams also is the target of a Justice Department investigation expected to yield an indictment in Chicago on Friday. Government prosecutors have scheduled a news conference there Friday morning to announce grand jury action in the investigation of pension fund corruption.

It could not be determined Thursday whether Williams would be named a defendant.

The Senate Permanent Investigations subcommittee, after three-year probe of alleged mob control of the Teamsters' \$2-billion Central States pension fund, released its interim report less than two weeks before union delegates convene in Las Vegas to elect a successor to the late Frank Fitzsimmons.

Williams has no serious opposition for the job.

The committee urged the Labor Department to force Williams out of office if he refuses to answer questions about alleged ties to the crime syndicate which the FBI calls La Cosa Nostra and others call the Mafia.

The committee recommendation is based on the federal law applying to union fiduciaries — those entrusted with union members' money. The law holds those officials accountable for their management of the money.

The report noted that Williams cited the Fifth Amendment protection against self-incrimination in refusing to answer the committee's questions at a hearing last August.

"The Labor Department and the federal courts should give Roy Lee Williams another opportunity to answer questions about his conduct as a fiduciary," the report said.

Oregon Daily Emerald

In its first test on the issue since Republicans captured majority control last year, the chamber passed an amendment by Jesse Helms, R-N.C., the Senate's chief foe of legalized abortion. Opponents said it could deny benefits to between 5,000 and 10,000 poor women whose pregnancies resulted from rape.

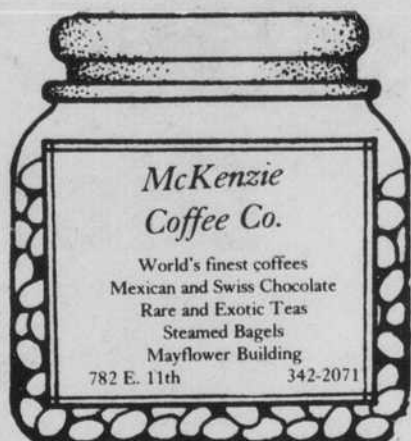

The Helms' move restored to

the Senate version of a \$13.3-billion 1981 supplemental spending the language of an anti-abortion rider which cleared the House earlier. Under past Democratic control, the Senate had rebuffed House efforts at tough anti-abortion restrictions.

The supplemental appropriations bill now is headed for a conference of Senate and

House members, but final approval of the abortion limit would seem a mere formality.

Some senators who supported Helms in principle voted against him on procedural grounds. They argued that stands on such controversial issues as abortion should not be taken by the Senate in amendments to money bills but should be treated separately.
