 presents  
**IN THE REALM OF THE SENSES**  
 In *The Realm of the Senses* makes challenging viewing for the Western moviegoer. Set in 1936 Japan, the movie is the story of two obsessive lovers, whose passion is so complete that it elevates them above the militarism and oppression of their world and into "the realm of the senses." Their's is a love without shame - as is director Nagisa Oshima's camera. But where Americans might see pornography, the Japanese have found revelation and the movie is not so much profane as it is sacred. It's a whole new kind of love and death.
