from 1976 to the present more than 10,000 people have "disappeared" in Argentina; that over 5000,000 people, one-sixth of the population of Uruguay, has left the country in the last ten years; that as many as 40,000 people in Chile have perished since the 1973 coup; and, that the military governments in these countries have received economic and military aid from the U.S. government? What's the connection? Find out at the regional conference:
