Miami police foil hijack attempt

MIAMI

A would-be hijacker fired on two airport gate agents and police Tuesday after he tried to board a flight to Key West, only to have an alert employee slam the airliner's door in his face, police said.

No one was hurt and the man, who had raised the employees' suspicions by acting nervously, was arrested after a brief gun battle with police, according to police spokesman John Jones.

The FBI and the Federal Aviation Administration said they were investigating how the man got the .25-caliber automatic handgun through concourse security checkpoints to

Gate F-6 at Miami International Airport.

"Evidently he went through the checkpoint," FAA spokesman Jack Barker said from Atlanta. "He pulled out the gun at the gate. We have to assume he carried it through the checkpoint."

The man pulled the gun and started shooting while he was in the passageway between the departure gate and the Air Florida plane, authorities said.

The man was identified as Jesus Villa Munoz, 41, of Hialeah, and he was charged with attempted first-degree murder, attempted air piracy and use of a firearm to commit a felony, Jones said.

An alert gate agent slammed the door to the Boeing 737 before the man, who held a one-way ticket, could reach it, airline spokeswoman Robin Cohn said.

and fined another 7,000 for martial law violations, the official PAP news agency said Wednesday in reporting the biggest dragnet since military rule was imposed in Poland.

In addition, PAP said 145,000 people were warned, 29,000 lectured, and 4,000 sent to misdemeanor courts, and that 614 people still face police courts for martial law violations uncovered during the recent two-day sweep called "Operation Calm."

PAP said 25,000 regular and volunteer policemen checked 51,000 shops, 60,000 vehicles and 3,500 hideouts for "criminal elements," adding: "It can be stated on the basis of reports of police patrols that the state of obedience to existing regulations of martial law is not the best."

Radio Warsaw, monitored in London, said the raids were "carried out throughout Poland" and that many were conducted at night. It did not give the exact dates of the sweep, and it was unclear how many of those detained were still in custody.
