Ambassador hints of war

WASHINGTON (AP) — Israel's new ambassador hinted strongly Thursday that his nation may soon order a military strike into Southern Lebanon if there is no abatement of the arms buildup by Palestine Liberation Organization forces. Moshe Arens told reporters the danger to Israel is "growing day by day" and "you might

almost say it's a matter of time" before his government feels compelled to take "some action that would bring about casualties." Such a development would be certain to exacerbate tensions throughout the region. Pres. Reagan's special Mideast negotiator, Philip Habib, was dispatched to the area this week

in another attempt to head off hostilities.

Arens, who just last week presented his credentials to Reagan as Israel's ambassador, stopped short of predicting a pre-emptive strike by Israel into Lebanon that could break the existing cease-fire, although he didn't rule it out.

He made clear, however, he believes there is a greater likelihood of a provocation by the PLO, such as shelling into Israel, that could ignite a retaliatory strike.

Arens said the PLO is being supplied with heavy Soviet guns which are being paid for by Saudi Arabia. He said the PLO and Syria now control virtually all of Lebanon except for the small portions run by Israeli-supported Christian elements.

Committee cites Watt

WASHINGTON (AP) — Interior Secretary James Watt was cited for contempt of Congress on Thursday in a vote that could set the stage for a historic confrontation between the legislative and executive branches of the government.

The House Energy and Commerce Committee approved the contempt resolution 23-19, four months after Watt invoked Pres. Reagan's claim of executive privilege in refusing to produce documents relating to Canadian energy and investment policies.

The vote sends the issue to the full House, which must decide whether to seek criminal prosecution.

The dispute involves 11 documents dealing with Canadian policies toward foreign investors and whether they discriminate against U.S. citizens and corporations to the extent of requiring retaliation under U.S. law.
