EASY RIDER

Dennis Hopper and Peter Fonda star in this late sixties ballad of two motorcycle riders journeying east across America from an easy calm into the eye of the country's storm. Jack Nicholson is brilliant as a radical Southern lawyer who has a surreal vision of Venusians when he gives up scotch for joints. Rich with music (Steppenwolf, Byrds, Electric Prunes), jargon and naivete of the late sixties, Easy Rider deserves its title as an early cult classic.

The Ananda Marga Society presents PLAN 9 FROM OUTER SPACE

This film has gained popularity because it is absolutely one of the worst films ever made - and also great campy fun! Shot on a non-existent budget, the special effects are pathetic, the script is downright embarrassing, and the acting is truly awful. To top it off, the film's star (Bela Lugosi) died during the first week of filming (mercifully, some people say), and he was replaced by a "double" who is constantly trying to cover up the fact that he looks nothing like him! You have to see this film to believe it!
