SUFI CIRCLE PRESENTS

ALIEN

Without a doubt one of the most powerful science fiction films ever made, *Alien* is guaranteed to have you on the edge of your seat. In *Close Encounters*, the aliens were "nice guys," but the creature who gets on board the spaceship here is *Bad News*. Ruthless, deadly, and able to metamorphize to new, more menacing forms, the Alien symbolizes the primordial fear of all that is beyond our control or understanding.

WORKING WORLD TEST

1. Explain how the experience you've gained will help you in this job...

"This wasn't in the book"

The experience test is one of the working world's toughest, and you definitely won't find the answer in the book. The only way to prepare for this test is to go out and get the experience.

The problem is, most job seekers right out of college find they haven't had a chance to do that. You can get that experience in the Peace Corps. If you qualify, you'll go to work in fields such as education, and biology, helping those in third world nations all over the world. You'll get experience.

Call the Peace Corps at 686-3235 today and find out how we can help you pass the test of experience.

Invest in your future
