GYROS
(pronounced YEAR-OS)

Gyros is a lean blend of specially selected meats. It is lightly seasoned and cooked to sear the outside so that the juice and flavor are sealed inside. The meat is cooked to order on the Kronomatic® broiler which gives it that "Charcoal-like" flavor. Served as a sandwich with Pita bread, and fresh tomatoes, onions and special sauce.

ASUO Pres., committee choose 3 vice-presidents

By Dane Claussen
Of the Emerald

ASUO Pres.-elect C.J. Balfe has selected an Incidental Fee Committee member, ASUO-program director, and Emerald associate editor to fill his three vice-presidential positions for the next year.

Selected Wednesday by Balfe and a hiring panel were David Gibson, vice president for administration and finance; Vincson Green, vice president for program development; and Ann Portal, vice president for state and public affairs.

Gibson is currently an IFC member, Green is director of the Black Student Union, and Portal is the Emerald's associate editor for higher education.

Alan Contreras, current ASUO vice president of program administration and a member of the hiring committee, said that all three are "excellent choices" who will perform their jobs well.

"The most capable person when it comes to fiscal management that I've ever met," said Balfe about Gibson.

"David Gibson... is going to be particularly well-situated to help the new IFC, who are not as familiar with the process," Contreras said.

Gibson applied for the posi-

tion after becoming interested in the budgeting process this year as an IFC member. "I like the job," he said, adding he thinks he can make a significant contribution to the ASUO Executive.

Two top priority goals will be discovering exactly how much money is in the reserve fund of overrealized incidental fees and standardizing program telephone costs, Gibson said. The Legislature should allow the reserve fund to be invested, he added.

"Vincson has a real strength in that he knows programs," Balfe said of Green.

Contreras said, "his (Green's) experience as a program director and an excellent idea of how to work with programs in a positive manner" will be definite pluses for the administration.

He is well-suited to "provide them (programs) with the guidance they need," Contreras added.

Green said that he decided to apply for the post because he has enjoyed his job as BSU director and because he is anxious to serve as a resource to programs and organize special events.

He said he wants to be "someone to bring unity between the programs."

The reason Portal got the job was her "extensive and complete knowledge of issues" on and off campus, said Balfe.

"I don't think you could find a student willing to do the job that is as knowledgeable about student-academic issues," Contreras said.

Portal said at this point she thought it was "better to become an advocate for higher education than a reporter of it."

"After a year of covering higher ed, half of what I know can't be printed in the paper," she said, emphasizing that the ASUO vice presidency will af-

ford her an opportunity to use knowledge acquired covering the state system of higher education for the Emerald.

Portal said her first goal is the removal of the \$49 tuition surcharge and informing legislators about University students' opinions on higher education issues.

Green's position will include the program development responsibilities of the program administration, and academic and university affairs vice presidencies of this year, Balfe said. Gibson's office will co-ordinate all matters dealing with funds, and Portal's position will concentrate on the legislature, he said.

"Every move they make will be in the students' best interest," said Balfe about his vice presidents.

An executive vice president to co-ordinate efforts between the three other vice presidents and other ASUO office officials will be selected by the end of next week, Balfe said.

Hotel offers special rate to jobless

Need a job in the Portland area? The Paramount Heathman Hotel in downtown Portland wants to help by offering unemployed people rooms for half price.

Tony Byers, sales manager of the hotel, says the Heathman wants to help the little guy. "If we can help just one family we will have accomplished something," he says.

Byers says that with unemployment approaching 10 percent, the hotel management thought it needed to do something.

"We want to help people who want to better themselves," he says. "We want proof that they are unemployed and looking for work."

"We are sincere about the offer," he continues, adding that this is "not just another ad. At this price I do not know if we will even make money." He expects the offer will run throughout the summer.

Byers hopes the Heathman will start a trend so other business like restaurants and travel agencies will offer similar deals for the unemployed.

YOUR TURNTABLE MAY NEED THIS

\$39.95*

UPGRADE

Check your turntable for these symptoms:

- **LOSS OF HIGH FREQUENCIES**- Realize that as your cartridge slowly wears out, your ear is daily getting used to the sound, so try to remember what the system sounded like when it was new.
- **DISTORTION IN MID-RANGE AND HIGH FREQUENCIES**- Generally indicates a badly worn stylus (needle) or a maladjustment in cartridge overhang and offset angle [which eventually damages your record collection].
- **INCREASE IN BACKGROUND NOISE**- More noticeable between tracks on the record, this could mean a simple tracking force adjustment is necessary, or it could be indicating a breakdown in the damping material around the cantilever.

*NAPIER AUDIO'S \$39.95 UPGRADE INCLUDES:

- Your choice of either a GRADO GF3E+ cartridge (55.00 value) or a SONUS SR-202 cartridge (60.00 value).
- FREE set-up and adjustment of the cartridge in your turntable (includes mounting, tracking force, overhang and offset angle adjustments - please bring in your turntable for these adjustments).
- Your positive confirmation of increased quality of sound after auditioning your new cartridge (if not satisfied, we'll void this transaction - you can't lose!)

YOUR RECORDS WILL THANK YOU!
