

## Get to the answers faster. With the TI-55-II.

What you need to tackle the higher mathematics of a science or engineering curriculum are more functions—more functions than a simple slide-rule calculator has.

Enter the TI-55-II, with 112 powerful functions. You can work faster and more accurately with the TI-55-II, because it's preprogrammed to perform complex calculations—like definite integrals, linear regression

and hyperbolics—at the touch of a button. And it can also be programmed to do repetitive problems without re-entering

the entire formula.

Included is the *Calculator Decision-Making Sourcebook*. It makes the process of using the TI-55-II even simpler, and shows you how to use all the power of the calculator.

Get to the answers faster. Let a TI-55-II show you how.
