

Fishbowl entry to receive stained glass windows

Stained glass windows will be the new look around the Erb Memorial Union cafeteria this fall. The cafeteria, more commonly known as the "Fishbowl" for its round structure and abundant window glass, will undergo a \$3,000 enhancement during October.

Portland artist Garth Edwards is the man behind the artwork. Edwards will design and execute a lunch counter scene that will fit into existing window frames above the Fishbowl entrance. The art will cover about 68 square feet of window space.

Work on the project may begin as early as next week, Edwards says.

"The glass is coming in from Europe, but they make it differently every time. I may have to go down to L.A. to buy the glass."

Edwards isn't sure how long it will take to complete the project.

"It'll depend. It's going to take figuring out what looks good as I go along. A lot of decisions get made in the actual doing of the work."

The project has been in the planning stages since April.

Funds for the project are coming from money reserved specifically for art, according to University planner, David Rowe.

"The state sets aside one percent of any construction costs for the acquisition of art," Rowe says.

The art fund was created by the 1977 Legislature. The money is provided by "co-mingled student building fees," a fund collected from all schools in the state system. These fees are used only for construction involving non-academic buildings.

Police seek witnesses to hit and run accident

Eugene police are requesting public assistance to investigate the hit-and-run death of Elizabeth Sandra Ingram.

Somebody, somewhere, knows who was driving the car, says Gary West, officer in charge of the investigation. It's a matter of getting that person or the driver to come forward, he says. Two reward funds have been established to encourage witnesses to come forward.

An unidentified motor vehicle struck Ingram, a 50-year-old University journalism student, at the 1800 block of Cal Young Road about 10:30 p.m., Aug. 25, as she bicycled home from a pizza outing.

Two vehicles were reported seen in the area at the time. The first is a light-colored sedan similar to a Camaro or Firebird, according to a police report.

The second vehicle is described as a short, narrow, dark-blue pick-up truck — possibly a 1976 model. A Chevrolet insignia was seen on the front grill.

The truck appeared lowered all around with a smaller than usual rear window which may have been tinted. The Chevrolet brand name on the tailgate, ordinarily highlighted with a

different color, is the same dark blue color as the body. The truck's rear lights are round and a plastic cover was seen over the rear license plate.

The vehicles may not show obvious damage, the report says.

Either vehicle may have been involved, but neither vehicle was observed swerving erratically, contrary to an Aug. 26 *Eugene Register-Guard* story, West says.

The Eugene Fire Department found Ingram dead on the scene. Ingram's bicycle was equipped with lights, West says.

The victim's divorced husband, Claud Ingram, is offering a \$1,200 reward to anyone providing information leading to the identification of the driver responsible for the woman's death.

In addition, Ingram's divorce support group has established a reward fund. Contributors can reach group president Fran Simmons at 343-9572.

Persons with information about the driver's identity can call the police department's anonymous information line, 484-5188, or call West at 687-5131.

SEVEN CHAPTERS OF PHILOSOPHY FOR TOMORROW AND A ROCK CONCERT TONIGHT

YOU CAN DO IT!

It gets down to what you want to do and what you have to do. Take the free Evelyn Wood Reading Dynamics lesson and you can do it—handle all the work college demands and still have time to enjoy college life.

You can dramatically increase your reading speed today and that's just the start. Think of the time, the freedom you'd have to do the things you want to do. For twenty years the ones who get ahead

have used Reading Dynamics. It's the way to read for today's active world—fast, smooth, efficient.

Don't get left behind because there was too much to read. Take the free Evelyn Wood Reading Dynamics lesson today. You can dramatically increase your reading speed and learn about advanced study techniques in that one free lesson. Make the college life the good life. With Reading Dynamics you can do it.

SCHEDULE OF FREE LESSONS NEXT WEEK ONLY!

Monday, Oct. 4 through Friday, Oct. 8
4 p.m. or 7:30 p.m.
Greentree Motel
1759 Franklin Blvd.
Complete Courses Begin October 10
