

## Police nab robbers

Eugene Police arrested 26-year-old James Charles Carmichael last Tuesday and 17-year-old Dane Le Wheeler Wednesday for a number of area robberies, including the Nov. 19 hold-up of Miller's Grocery, 1026 E. 20th Ave.

Carmichael, who was released from the Oregon State Penitentiary a month ago, was arraigned Friday in district court on two charges of first-degree robbery. Police also have charged Carmichael with parole violation and theft, says Sgt. Mike Cline of the Eugene Police Department.

The charges involve the hold-ups of the Oregon Electric Station restaurant on Oct. 25 and Miller's Grocery, which is located in the south University area, on Nov. 19. Police believe these incidents are the first and last of about 11 related robberies.

Le Wheeler is charged with the robbery of the Electric Station and the theft of firearms from a Lane County residence, Cline says. He is in custody at the Skipworth Juvenile Home and will be tried under state juvenile codes, according to Cline.

A uniformed patrol officer arrested Carmichael after pulling him over for a traffic violation. He showed false ID that was stolen during a residential burglary, Cline says.

The department already had received information indicating that Carmichael and Le Wheeler, both of Eugene, were the hold-up team, he says.

With Carmichael's arrest, the police had enough evidence to link the two suspects and arrested Le Wheeler the following day, he says.

Police still are searching for a third suspect.

## Senate cancels next meeting

The Faculty Senate meeting, originally scheduled for Wednesday, has been canceled due to insufficient business, says Senate chairer Gerry Bogen.

Reviewing curriculum changes, the main item on the agenda, would not be possible because members would not have received information in time to study materials carefully before the meeting, Bogen says.

The Senate will review the proposed curriculum changes and any other business brought up at the Dec. 8 University Assembly meeting at its next meeting on Jan. 5, at 3:30 p.m. in Room 125, Law School.

## Economics degree probed

The value of an economics degree will be discussed today at a 2 p.m. seminar in EMU Room 167.

Three seminar speakers will discuss economics-related jobs in government and banking, the values of different degrees, graduate courses, and admissions criteria for the graduate program. The speakers will be Tom Corrigan, director of employment and recruiting for First Interstate Bank's Oregon division; Joe Stone, economics professor and chairer of the Graduate Admissions Committee; and Jim Scherzinger, state economist for the Legislative Fiscal Office.
