HEAVENLY VISIONS INVESTIGATING THE LINKS BETWEEN ASTRONOMY AND ASTROLOGY

This SEARCH workshop begins Wednesday June 20, 137 Gilbert at 7 pm. Beginning with a journey through slides into the outskirts of the Universe the class will settle back down to a perspective of the heavens from the surface of the Earth. Specifically, the constellations that have come down to us from at least 300 B.C. will be examined, both in and out of the classroom. The impact of these figures on ancient thought and their relation to the birth of civilization and the "mysteries" will be the focus of the instruction. The instructor is a local inventor, writer and UO law student. To sign up, call SEARCH, 686-4305, or simply attend the first class. Open to non-students. 2912:611
