

Autzen holds Alum parties

Pre- and post-game social gatherings under a giant tent in the Autzen Stadium parking lot are held for alumni and friends at all University home football games.

Sponsored by the Alumni Association and hosted by the Lane County chapter of the association, the "Giant Alumni Tent" opens at 10:30 a.m. and remains open through the day. Refreshments and "Duck paraphernalia" are sold, and entertainment is provided by various groups including the University rally squad and the Fighting Duck marching band.

In addition, prizes are given away including seat cushions and Duck stickers. An alumni information table will also be set up in the tent.

Following each game, a videotaped replay of the contest is shown. Remaining home games are scheduled for Oct. 13 (Southern California) and 27 (Washington State — homecoming), and Nov. 10 (Arizona State).

"The main purpose of the tent party is to offer a gathering place to alumni and friends," says Cathy Cornils Busse of Eugene. "We are using this as an avenue of bringing people together in support of the Alumni Association and the area chapters."

For additional information about the alumni event, call the University Office of Alumni Relations at 686-5656.

New rulings for hunters

The US Fish and Wildlife Service has published a final rule outlining regulations governing hunting on national wildlife refuges. The rule describes the specific regulations governing hunting programs for migratory game birds, upland game and big game for each refuge.

The rule, published in the Sep. 19 Federal Register, does not add any new refuges to the list of those open to hunting. Instead, it codifies all existing refuge hunting regulations as part of the Code of Federal Regulations. These regulations will remain in place unless amended by subsequent regulations which will be published in the Register.

The Service is taking this action to improve administration of the hunt programs by eliminating the need to publish each refuge's hunting regulations in the Federal Register each year. Annual publication is costly and in the past has delayed timely issuance of the regulations.

The ruling also includes two new general provisions applying to all refuges with hunt programs. The first prohibits unauthorized distribution of bait and hunting over bait. The second prohibits the use of nails, wire, screws or bolts to attach hunting stands to trees or hunting from a tree into which a metal object has been driven in order to support a hunter.

A supplemental proposed rule correcting several errors and oversights in the original proposal was published in the Sep. 10 Federal Register. Persons with questions concerning hunting regulations on specific refuges should contact the refuge headquarters for additional information.
