## And rifle of same make used in sniping Police find pistol on student

By Diana Elliott  
Of the Emerald  
and AP reports

Eugene Police arrested a University student during a biology lab class Wednesday and charged him with carrying a concealed weapon and possession of a firearm in a public building.

Dale Gene Crawford, 27, a University freshman was apprehended in Science I after police were informed that a rifle was discovered in the trunk of a car rented by Crawford.

An employee of Rent-A-Volks, Inc., a local car rental agency, notified police after he found a Ruger Mini-14, a .223

caliber semi-automatic rifle of the same make as one used in a sniping incident at Autzen Stadium Monday, in the trunk of an automobile that Crawford reportedly had rented.

The employee found the rifle while cleaning the car, which had been repossessed from the University campus earlier in the day. Three loaded clips of .223 caliber ammunition and an undisclosed amount of .45 caliber pistol ammunition also were found in the trunk of the car according to Sgt. Chuck Tilby of the Eugene Police Department.

After searching Crawford, police found a .45 caliber pistol, and further investigation led to

forgery charges by the Oregon State Police, Tilby said.

The same type of rifle was one of the weapons used by Michael Feher when he fired dozens of shots from Autzen Stadium on Monday. A former Olympic sprinter was killed and a University wrestler injured in that incident before Feher turned the gun on himself and committed suicide.

There is no apparent connection to the sniper incident that occurred on Monday," Tilby said. "They are separate, isolated incidents."

Crawford will be lodged in Lane County Jail until his arraignment this afternoon in Lane County District Court.
