**THE GODS MUST BE CRAZY**

A wonderfully funny and wistful adventure begins when a coke bottle falls into an idyllic tribe of Kalahari bushmen and causes strife. When Xi, their gentle chief, decides to take the evil object to the end of the earth and throw it off, he runs headlong into a herd of "civilized" people, including a bumbling microbiologist, an idealistic school teacher and a band of card-playing communist revolutionaries. It's a glorious blend of slapstick humor, romance, sly political commentary and astute anthropology.

Support Artistic Freedom, Not Coercive Utopianism  
This film was made by an independent production company (based in South Africa) whose only sin is working in a country ruled by an authoritarian regime that most of us find very repugnant. Jamie Uys, the producer/director/writer is in NO WAY PRO-APARTHEID. The film was made as tribute to the Kalahari peoples. If you choose to deny yourself the experience of this unique motion picture it's your loss. But don't pretend that by doing so you are in any way fighting Apartheid.
