

Power tool for the Class of '89.

All brains and no brawn can make school a trying experience.

Put some power behind those brains of yours with a Canon Typemate 10 electronic typewriter. Why?

To start with, the Canon Typemate 10 has the power to help teach you how to type. Or improve your typing skills.

It has three lesson plans built right in. And a liquid crystal display to show you how to exercise those little fingers of yours.

Before you know it, you'll be doing some pretty amazing things with Typemate's professional keyboard. Like text editing. Storing up to 1,500 characters in text memory. Setting margins, centering and more, all automatically.

What makes the Typemate such a powerful little guy? Electronics. The same electronics that make it portable, lightweight, and easy to use.

Canon Typemate runs either on battery power or with an AC adaptor. And it uses thermal transfer printing on plain paper, so it's extremely quiet.

So flex a little brain power. Get a Canon Typemate 10. A powerful tool for life.
