

# Duck spring football practice ends on positive note

By Brent De La Paz  
Of the Emerald

With the defense looking impressive and tailback Tony Cherry propelling the offense, the Oregon football team ended its spring drills with optimism in the intrasquad scrimmage at Autzen Stadium on Saturday.

Defense was the key point as several Ducks are vying for a starting position when fall drills open up. On offense, Cherry showed his versatility in running — and catching the football in the last practice before drills start in August.

"I was relatively pleased with the scrimmage," Oregon coach Rich Brooks said. "I think we solved a lot of things.

Coming into the drills, Brooks was looking for an answer to the middle linebacker spot. What he found were three people, Jerry Mikels, Darrin Golka and Ron Zemp, who were all ready to replace last year's graduated starter, Bob Hudetz.

"I don't know who is going to start," Brooks said of the battle. "I'm trying to figure who is going to be one, two and three."

Brooks also discovered that Oregon's offense could be effective despite not having starting quarterback Chris Miller at full strength. Miller hit five of nine passes for 62 yards, but his sprained right shoulder wouldn't allow him to

throw deep.

The Ducks' offense was without flanker Lew Barnes, who had a class conflict. Barnes, Oregon's Mr. Excitement, missed the 75-minute workout, but his absence didn't diminish from the offense's performance — especially Cherry who firmly claimed the starting position at tailback.

Cherry gained 73 yards on nine carries and collected four passes for 45 yards. On top of that, the 5-8 senior from Victorville, Calif., zoomed up the middle on a nifty 39-yard kickoff return.

Oregon's offense scored two touchdowns, and Matt MacLeod delivered a 32-yard field goal. The first

TD was a Kevin Wilhite 1-yard plunge and the second came on Scott Holman's 21-yard scoring catch from backup quarterback Tim Norton.

With Miller not at 100 percent, Norton proved to Brooks that Oregon had a capable relief man during the spring practices. Norton, whose only major mistake was a tipped interception, hit six out of 11 passes for 70 yards.

Brooks said the junior transfer from Tennessee "did some good things," but felt the Ducks' No. 2 signal caller had to improve on his accuracy.

"We made a lot of progress," Brooks said. "We are better than we were a year ago."

## OSU takes 2 from UO

Oregon was victimized by clutch hits and good pitching Sunday, as Oregon State University swept a softball double-header from the Ducks, 5-2 and 3-2 at Ropes Field in Corvallis.

Although Oregon outit OSU both games, the Beavers made the most of their chances. OSU upped its record to 21-22, while Oregon dropped to 17-23.

Lisa Ginoza's line drive to left field scored Sharon Tackett in the bottom of the seventh inning to give OSU a 3-2 win in the second game. The Beavers came back from a 2-1 deficit. Oregon left fielder Stephanie Heisler nearly made a spectacular diving catch of Ginoza's hit, but the ball popped out of her mitt.

Sony Schroeder gave up seven hits in taking the loss for Oregon, and OSU's Toni Williamson got the victory despite surrendering eight hits.

In the first game, OSU won on only two hits. One of them, however, was a three-run inside-the-park home run, by Lianne Watanabe in the fourth.

The Ducks wrap up their season this week, starting today at Oregon Field with a 2:30 p.m. double-header against Lewis and Clark College.

## Blazers force Lakers to five

PORTLAND (AP) — The Portland Trail Blazers overcame a 31-point, 13-assist performance by Magic Johnson Sunday to edge the Los Angeles Lakers 115-107 and stay alive in the National Basketball Association playoffs.

## YOUR POWER OVER NUMBERS...

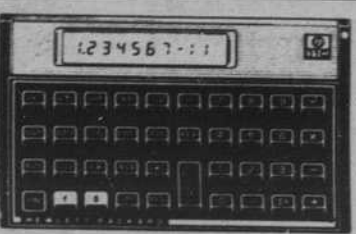

**SHARP**

NOW \$39<sup>95</sup>

MODEL EL 533  
10 DIGIT FINANCIAL CALCULATOR WITH TEXT  
Powerful wallet-size financial companion in elegant silver & gold-tone finish.

- Performs interest calculations automatically.
- Computes cost, selling price, or margin/mark-up instantly if given the other two values.
- Amortization of payments.
- Discounted Cash Flow Analysis.
- Statistics mode includes linear regression and prediction.
- Annual rate/effective rate conversion.
- Easy calculation of monthly payment problems with x12/12 functions.
- 10 digits with decimal selection.
- Percent, delta percent and right shift keys.
- Memory Safe Guard.
- Comes with application book, batteries and wallet.
- 2-11/16" (W) x 1-3/32" (H) x 5" (D).

**hp HEWLETT PACKARD**  
HP 11C  
SLIMLINE PROGRAMMABLE SCIENTIFIC CALCULATOR

Reg. \$75 NOW \$69<sup>95</sup>

- Pocket-size calculator features 203 lines of program memory.
- 10-digit liquid crystal display.
- Automatic power-off feature.
- Scientific functions include modes for degrees/radians/grads, hyperbolic or inverses, rectangular coordinated/polar coordinated, decimal angle.
- Statistical features include 1 or 2 variable mean or standard deviation, summation, linear regression/estimate, correlation coefficient, factorial, gamma, combinations/permutations, and random number generator.
- Automatic memory allocation.
- 5 user-definable keys.

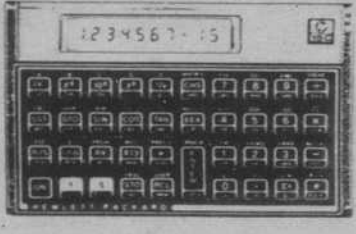

**SHARP**

Reg. \$99.95  
Sale \$85

MODEL EL 5510

PORTABLE FINANCIAL COMPUTER WITH DUAL KEYBOARD, WITH TEXT  
Two machines in one: Financial Calculator, BASIC Computer.

- Ability to use statistical information and financial functions in BASIC mode.
- Financial functions include compound interest amortization, discounted cash flow analysis, etc.
- 19 statistical functions, including linear regression.
- 3534 BASIC program steps.
- 16-character dot-matrix display.
- Ability to store and recall 18 separate programs under different labels.
- 26 data memories for storing values in BASIC mode.
- 18 instant BASIC instructions for fast programming.
- Optional CE-126P Printer, with Cassette Interface for storing programs (cassette recorder not included).
- 6-11/16" (W) x 3/8" (H) x 2-27/32" (D).

**hp HEWLETT PACKARD**

Reg. \$120  
NOW \$108

Let the Hewlett-Packard HP-15C with its powerful functions and advanced programmability eliminate your most tedious calculations.

- Matrix operations
- Complex functions
- Solve and Integrate
- 448 program lines
- Insert/delete editing
- RPN logic, Continuous Memory, and liquid crystal display.

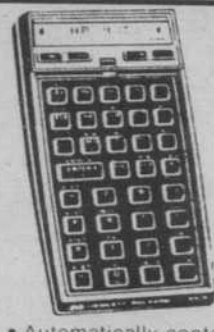

**hp HEWLETT PACKARD**

HP41CV  
PROGRAMMABLE CALCULATOR WITH QUAD MEMORY

Reg. \$275 NOW \$220

- Automatically contains 319 storage registers, or 400 lines of program memory.
- Up to 919 storage registers (with optional memory modules).
- 128 built-in functions.
- 12-digit LCD.
- Continuous memory.
- RPN logic.
- 4 calculator modes include normal, alpha, user, and program.
- Function preview, null and prompting.
- Includes owner's handbook for experienced users, standard application book and quick reference guide.
- Vinyl case, overlays, module holder and 4 batteries included.

**hp HEWLETT PACKARD**  
HP 41CX

Reg. \$375  
Sale \$275

- Automatically contains 319 storage registers, or 400 lines of program memory.
- Up to 919 storage registers (with optional memory modules).
- 148 built-in functions (20 are for enhanced programming).
- Built-in time and extended functions memory modules.
- Text file editing.
- 12-digit LCD.
- RPN logic.
- Includes owner's handbook for experienced users, standard application book, quick reference guide, vinyl case, overlays, module holder and 4 (MN9100) batteries.
