

Draw attention to yourself.

Draw a chart. Draw a building. Draw a conclusion.

Whatever you need to draw, a Macintosh™ can help you do it. With programs like MacDraw™, MacPaint™ and MacDraft™, you can combine text and graphics to illustrate your ideas like they've never been illustrated before.

Another example of how Macintosh helps students work smarter, quicker and more creatively. And the beauty of Macintosh is, you don't have to know diddley about computers to use one.

What does Macintosh draw best? Attention to your work.
