

ASUO President

RAMON M. ANGELUCCI

It saddens men in whose hearts the spirit of liberty rings true that a monstrosity known as Students for a Progressive Agenda dominates the political life of a major university. SPA has turned this institution into an institution.

My sentiments toward their wanton ways are reflected in the words of the immortal Niccolo Machiavelli:

"The barbarian occupation stinks in the nostrils of us all."

In outlining the Qualities of the Prince, Machiavelli expressed dismay toward Princes who carelessly squandered money, because he believed the Prince would be forced "to burden the people with excessive taxes and do everything possible to raise funds. This will begin to make him hateful to his subjects..."

This is the political path down which the present administration, endorsed by Students for a Progressive Agenda, has stumbled.

For too long, people hungry for power have allocated your funds as they have seen fit.

Placing the power of choice back into the hands of those who bear the burden could be the proverbial finger in the dike.

Students for a Progressive Agenda is once again asking you to swallow its familiar fallacies. The organization has endorsed several candidates whose opinions are generally consistent with SPA.

Only about 12% of the student body voted in last year's anemic election, which SPA dominated.

Let us end our apathy. Let us take back our campus. Let us assume an aggressive agenda that will restore

our university's reputation for excellence. Elect Ramon M. Angelucci ASUO President.

**KEVIN LEWIS
DOUG WHITE**

Student government is at a very critical point. The new ASUO Executive will be faced with many issues of great importance. Such issues include: Control of the policies and thousands of dollars involved in the ASUO Insurance and Student Projects Incorporated; Service Improvements in the areas of Child Care, Campus Security and the Computer Use Center; Budgeting of the nearly Three Million Dollars in Student Fees; Program Assistance with Activities and Student Involvement; and, of critical importance in a legislative year, Lobbying for a Tuition Freeze, Financial Aid, Higher Education in general, and Graduate Student Tax Relief.

The complexity and critical importance of these issues demand that the next ASUO Executive have experience. The team of Kevin Lewis and Doug White has the experience required to effectively confront these important issues.

Kevin Lewis has been the ASUO Budget Director, a member of the Erb Memorial Union Board of Directors, the Vice-Chair of the EMU Budget Committee and Chair of the Computer Use Center Committee. Currently, Kevin holds a GTF as the Coordinator of Student Involvement for the University Student Affairs Division and is a member of the Graduate Teaching Fellow Federation.

Doug White is the Tribunal Chairman of the Inter-fraternity Council Executive and is a member of the Student Conduct Committee. Doug has also served as Vice-President and President of Sigma Chi Fraternity.

We offer you an Experienced Team, Committed to Productive student government. We appreciate your support.

Elect Lewis and White ASUO President and Vice-President.

**STEVE NELSON
CAITLIN CAMERON**

The ASUO Executive is the most powerful tool the student body has, and directly influences many important decisions made at the University. As President and Vice President, we will use this power to achieve our goals on these, and other, issues.

Financial Aid is in serious trouble, and we will utilize our membership in the professional lobbying networks, OSL and USSA, to fight cuts in the program.

Childcare is in need of expansion and upgrading. We will create a user task force to insure more parental input, and continue to support alternative childcare.

We are committed to improving campus safety through support of projects such as the Saferide Van.

In addition, handicapped accessibility is an issue we will immediately address. We will also continue student input into campus planning decisions, provide responsible allocations of student incidental fees, and fight for divestment of student funds from South Africa.

We are the most experienced ticket running, and our experience is both recent and relevant.

Steve is a Student Senator, and has served on the Campus Planning Committee and the Riverfront and Transportation subcommittees, ASPAC, and several other committees including the Handicapped Accessibility Project.

Caitlin is the ASUO Finance Coordinator, and heads the Computerized Registration Task Force.

She has served on many committees, including the Saferide Van Committee, the Counseling Center Committee, and Oregon Student Lobby.

We are the SPA endorsed candidates, and are committed to the goals of the organization. Your vote for us is a vote for responsible, effective student government.

IFC 2 year seats

BOB BALDWIN

I am seeking a two year position on the IFC because I feel it is absolutely essential that full support be given to:

* Affordable child care programs for single and working parents

* Programs such as Project Safe Ride which help assure the safety of students

and other programs aimed at the needs of the student body. I also recognize the need to support programs which provide educational services for students and which promote the ability of the student body to directly impact on the political system of which we are an integral part. Therefore, I fully support:

* The measure placed on the ballot by OSPiRG

* The USSA funding measure

as well as funding for all other campus organizations and programs which further the expression of the diversity of life styles and philosophies which make up our University.

In this effort, I already have the support of:

* Students for a Progressive Agenda (SPA)

* The University Democrats

and I hope that you too will support me and the rest of the SPA team in our effort to respond to
