

and streamlined aircraft-style doors that open into the roof line. While these smooth contours contribute to a great look, they also make Spectrum a champion of aerodynamics.

CLASS ROOM.

The layout of the Spectrum interior performs as good as it looks—with reclining front bucket seats and a roomy rear seat that give you and three passengers a way to get comfortable. And the instrument pod offers information and controls within a fingertip's reach of the steering wheel.

HONORS IN ENGINEERING.

Spectrum has the substance to meet real-world challenges—and have fun in the process. With standard features like a 1.5-liter overhead cam engine, computer controlled for changing elevations and driving conditions. Front drive and MacPherson-strut

front suspension for great footing and accurate cornering. And a slick-shifting manual five-speed gearbox that puts you in complete command. Chevy Spectrum: hot new styling, roomy comfort, superb engineering. All told, it's one sharp object.

Let's get it together...buckle up.
