

## ASUO COURSE GUIDE

The ASUO Course Guide is published by the Associated Students of the University of Oregon, and is distributed each term (excluding summer term), free of charge to the university community. Since the course descriptions are written by UofO professors themselves, the Course Guide can assume no responsibility for incorrect information.

The Course Guide lists required readings, grading policies, class size, and other information. To best use the Course Guide, use it with the Time Schedule of Classes; when you see a class listed in the Time Schedule, check to see if a course description can be found in the Course Guide. If you are unable to locate the class in the Course Guide, complain to the professor instructing the class.

The Course Guide is by no means a substitute for the Time Schedule of Classes for it does not contain the entire course offerings of the university, nor does it list the TLM numbers for Winter '87. However, for those courses described, the Course Guide offers the most comprehensive information to be found.

If you have questions or comments about the ASUO Course Guide, feel free to contact us at Suite 4, EMU. 686-3724.
