

Watch Your Language.

Now students can have picture-perfect typing with the Smith Corona System 14.

You'll swear our word processing is as easy as typing. In fact, you never have to leave our typewriter! It's the incredible new PWP System 14.

You type and print right on the Smith Corona XE 6100 electronic typewriter. Then edit, store and recall right on your PWP.

For term papers it's a must. Because it remembers 32 pages of double-spaced text. Plus there's unlimited external storage via MicroDisks which hold 80 pages of text each.

Move entire paragraphs and sentences, search for and replace words at the press of a button. Then when you've finished previewing your work on the PWP, it gives you perfect typewritten pages—not funky dot matrix printouts.

You get all the advanced typing features of the XE 6100, like WordEraser™ (erases whole words at a touch), Spell-Right II™ electronic dictionary, Indexing Up and Down, Auto-Center, Auto-Underline, Relocate, and more. Plus these features are

all fully integrated into your PWP.

Want to type out a quick memo, note or letter? No problem. You can use the typewriter independently. Unplug the PWP anytime and take your portable typewriter with you anywhere!

But the most amazing part of the System 14 isn't that you get letter-perfect typing and word processing, it's that you get *both* for only \$799 complete (price includes the XE 6100). Watching your language should always be this easy.
