work on the follow up, he said. There was even talk of releasing a fifth single from the album, he added. Before that the band mainly played club and small theatre dates on the East Coast and in the Philadelphia area.

"That (touring) enlarged the whole scope of things — when you're suddenly playing in South Dakota and Washington and California and Texas... you know, pretty different kinds of areas where people are still reacting to the music. It does give you some confidence and it also lets you know you have a national audience," he said.

Touring also had another impact on the band. Not only do the members feel more comfortable on stage now, but Hyman said it affected the sounds and styles of the new record. Some of the songs are related directly to the road experience, he said.

"You know, you're on the road for almost a year and then you go back to write and it's like 'OK, what's in our heads?' That experience was so strong.

"'Karla (with a K)' is one of those that we actually started writing on the road," Hyman said, adding a lot of the songs on the new record are "about directions and movement and

stuff like that."

Hyman and co-writer/singer Eric Bazilian collaborate on the band's material "in the truest sense," Hyman said, but the overall songwriting process is fairly complex.

"It's not a breakdown of words and music or anything like that — some people wonder about that. We do both things together so it's like a give and take.

"It's just like playing pingpong or something. We really go back and forth and mull things over. And it really

as well as mischief, intrigue and rollicking good laughter in University Theatre's 87-88 season.

Orphans A touching look into the lives of two orphaned brothers in North Philadelphia who take in a strange new roommate. "A weird wonderful thriller...suspense, pathos and packing an emotional wallop!"

Noises Off! "A play within a play, mixing mockery and homage. Voices rise and trousers fall...A farce that makes you think as well as laugh."

Dance '88 The University Dance Department is back for its annual concert celebrating the world of dance. Excitement and creativity are channeled into styles from tap to modern to ballet.

Antigone The famous Sophocles play about love, death, and the salvage of pride. Antigone, daughter of the shamed Oedipus, loses two brothers in a war against each other and she must decide which will receive proper burial. An emotional powerhouse of a play.

The Miss Firecracker Contest The successful off-broadway hit reveals the zany events of smalltown life just before the Fourth of July. "It's a comic volcano...off beat, larger than life characters."

Love's Labours Lost the lords attending on King Ferdinand of Navarre vow never to fall in love — until they meet the ladies attending on the Princess of France. So begins the chase. A Shakespeare comedy full of fun, witticisms and word games, this play has an unexpected ending.
