#### Duarte seeks truce

SAN SALVADOR, El Salvador (AP) — The government of President Jose Napoleon Duarte and leftist rebels ended a two-day meeting Tuesday with an agreement to form a commission to seek a cease-fire in the 8-year-old civil war. Both sides had predicted that the talks would not resolve the major political and ideological differences separating them, and their joint communique announcing the cease-fire commission appeared to bear out their forecasts.

In statements issued after the negotiations, rebel leaders raised doubt that the commission could bring about an effective cease-fire because of the remaining differences. But Duarte said that if the commission fails, he would "assume a historic challenge" and ask his armed forces to declare a unilateral cease-fire.

#### Protesters arrested

LHASA, Tibet (AP) — Chinese police arrested about 100 demonstrators who chanted and waved fists in a march to the Tibetan regional government office Tuesday, five days after a pro-independence protest left at least 14 dead. About 2,000 people stood by as dozens of police and soldiers armed with automatic rifles and pistols rushed to the office compound and herded the marchers into trucks.

The marchers came from the direction of the Drepung monastery and were believed to have been Buddhist monks, but they wore civilian clothes rather than the saffron robes usually worn by monks. There have been reports that monks also planned to demonstrate on Wednesday, the 37th anniversary of the Chinese occupation of Tibet, a remote region in the Himalayas with 2 million people.

#### Five tankers damaged

MANAMA, Bahrain (AP) — Iraq Tuesday vowed to avenge an Iranian missile attack on Baghdad that killed or wounded "many civilians," and a Cypriot vessel raided by Iraq blazed out of control in the Persian Gulf. Maritime salvage executives in the gulf said the 25,879-ton Cypriot tanker Shining Star was a fireball almost 24 hours after it was struck. Iraq damaged five tankers, including the world's largest, in a wave of bombing runs in the southern gulf Monday.

Two long-range Iranian

missiles slammed into Baghdad Monday and Tuesday, official Iraqi media reported. Meanwhile, the U.S. Navy said the pilot of a Marine helicopter that crashed in the central gulf was listed as missing. Three other crewmen were rescued following Sunday's crash, which was apparently caused by mechanical failure.

#### Ortega criticizes plan

MANAGUA, Nicaragua (AP) — President Daniel Ortega blasted President Reagan's new conditions for ending aid to the Nicaraguan rebels, saying they may lead to a situation in which "the intervention of American troops cannot be disregarded." Ortega made the comment Monday after meeting with Nicaraguan opposition party leaders at a national reconciliation conference.

Ortega, speaking with reporters Monday, referred to a speech Reagan is scheduled to deliver Wednesday at a meeting of the Organization of American States in Washington. Reagan administration officials have said the president will outline steps he wants the leftist Sandinista government to take in exchange for ending U.S. military aid to the Contras.

#### Director to be chosen

PARIS (AP) — UNESCO's 50-member Executive Board began voting Tuesday to choose a new director-general, with controversial leader Amadou Mahtar M'Bow emerging as a clear favorite to win a third term. M'Bow appears to have enough African and Third World support to get his name put before a full UNESCO conference for approval in November. His current term expires Nov. 14.

M'Bow, of Senegal, has led the 158-nation United Nations Educational, Scientific and Cultural Organization for 13 years. In that time, the withdrawal of the United States and Britain has deprived the agency of 30 percent of its budget. Japan and at least three Western nations have indicated they will pull out if M'Bow is re-elected. Diplomats estimate the nations' departure would result in another 30-percent budget reduction.

#### Fiji declared republic

SUVA, Fiji (AP) — Coup leader Col. Sitiveni Rabuka Tuesday formally declared Fiji a republic and vowed to maintain the political dominance of ethnic Fijians over the larger Indian population. The declaration came 24 hours after talks

broke down with Queen Elizabeth II's representative and the leaders of the South Pacific island nation's two political parties.

"I reaffirm the indigenous Fijian race is empowered with the land and right to govern themselves for their advancement and welfare," Rabuka said. He said Fiji would have a new constitution to replace the one that took effect when it gained independence from Britain in 1970. Rabuka staged a coup Sept. 25, saying he had failed to achieve the goal of his first coup on May 14.

#### Bomber runs amok

AGANA, Guam (AP) — A B-52 bomber ran off a runway and onto a grassy area at an Air Force base here Tuesday after one of several small-caliber bullets fired into the plane from the ground disabled a steering gear, the Air Force said. None of the crewmembers was hurt and there was minimal damage to the Strategic Air Command bomber, said an Air Force spokesman.

The spokesman said there have been no arrests and no suspects identified in connection with the shooting that resulted in an emergency landing for the jet, which carries nuclear bombs. Touch-and-go training landings by the noisy, six-engine bombers have resulted in complaints from residents near the air field, but there was no information to link the shooting with those complaints.

### National

#### Airline bill considered

WASHINGTON (AP) — A bill that would provide airline travelers with free plane tickets if airlines delay their luggage faces action in the Senate following its approval in the House. President Reagan has threatened to veto the bill, which is far more sweeping than the consumer protections announced recently by former Secretary of Transportation Elizabeth Dole.

The House passed the measure by voice vote Monday in an effort to crack down on airlines for hassles faced by travelers. The bill also increases the fines imposed on airlines for safety violations. The legislation requires airlines to submit monthly reports to the government, including their on-time records, overbooking, canceled flights, lost and damaged luggage, and other consumer complaints.
