Should the Riverfront Research Park be developed?

'I do support a research park, but not in that location because it will take away the scenic area we have here.'

— Frederic Schildmeyer, graduate student, physics

'I don't think we need anymore traffic problems here. Why do that to a nice place like Eugene? The project will add about 2000 more cars...'

— Emilio Bandiero, first-year law

'It sounds good, but I have a question on the density level involved there. It may be important from the economic standpoint, but it should also be questioned environmentally.'

— John Crotts, doctoral student, leisure studies

'I feel that the research park is an opportunity for the area to expand; however, I will be opposed to it if the research has any military applications because it is not appropriate for Eugene since we are a nuclear-free zone.'

— Joanne Lutz, senior, PPPM

'If it hurts the environment, I think it will create problems because of the wildlife there. The positive aspect of it is jobs could be created, but I still think we should keep it like it is for the wildlife.'

— Kelly Cochran, sophomore, leisure studies
