Summer & Coming

"THE FLY II"—Pick up a can of Raid and a giant fly swatter because the human/insect is back ... sort of. Actor Eric Stoltz plays the son of the creature from the first adventure and Daphne Zuniga is the unfortunate all-human computer programmer who has a yen for him. Expect more goo and ooze.
(20th Century Fox)

"SKIN DEEP"—John Cusack and Julianne Phillips star in a love story on the water. *SKIN DEEP* is a sequel to the 1989 film *Blue in the Face*.
(Paramount Pictures)

An action-adventure that even bruised three of Swayze's own ribs during filming. (Warner Brothers)

"CHANCES ARE"—Cybil Shepard returns to the big screen as a widow unable to stop thinking about her late husband until her daughter (Mary Stuart Masterson) brings home a guy who seems to be the second take of the husband (Robert Downey, Jr.). Could it be a second life?
(Polygram)
