

Looking for a Career?

Career Placement Registry can help!

If you're a college senior or graduate student you are now job hunting, and everyone knows how much fun that is! Three hundred resumes ... dead end after dead end ... that letter to Dream Corporation you've written twelve times. You're beginning to wonder if you'll ever attract anyone's attention.

Why not let the Dream Corporation come to you?

How? By registering yourself in Career Placement Registry!

Career Placement Registry is a computerized employment network that will make your credentials available electronically to employers throughout the nation and worldwide.

50,000 Subscribers

Over 50,000 subscribers will have access to your credentials and career objectives. Businesses large and small, research firms, accounting and financial organizations, educational institutions, publishers, advertising and public relations firms, manufacturing companies, high tech firms, government agencies and multinational corporations including the Fortune 1000 are just some of the 50,000 subscribers that have an opportunity to find YOU.

Here's How the CPR System Works

You complete a short form listing your career and geographical preferences, majors, minors, special skills, languages, etc. CPR enters your information in the CPR database and instantly your qualifications are made available to interested employers. Employers use their computer terminals to search for a combination of factors—such as your degree, special skills, career preferences, extracurricular background, and so on.

If you have what they want, you won't have to get their attention! They'll come to you.

Does CPR work? Don't take our word for it... Here's what just a few of our clients have to say about CPR.

"It's a tough time to find a job, but the Career Placement Registry sure has made the search easier. Since placing my resume I have been contacted by seven organizations concerning job openings."

Claire Zigmund
University of Minnesota

"CPR provided this networking service without wasting time. The convenience of this service is valuable to job seekers and employers alike."

Randi J. Alreck

"I got my Career Placement Registry information on the same day as a friend of mine did. Since we both had the same curriculum and career interests, our completed applications looked very similar. The only difference was that I sent mine in. I've been working since the end of the summer while my friend is still looking for a job."

Sue E. Kwiatkowski
Rutgers University

Total cost to register with CPR is only \$12.00. Now is the time to get the exposure you need! To find out more about CPR, just complete and return the postage paid reply card.
