Multiple choice.

Now there's more in the Apple® Macintosh® family to choose from than ever before, with six computers to meet every personal computing need.

Start with the Macintosh Plus, the Macintosh SE, and the Macintosh SE/30. These integrated systems offer the affordability, ease of use, and consistency of applications traditionally associated with Macintosh.

And their compact design makes them easy to transport, wherever you go.

Now meet the modular side of the family: the

Macintosh II, Macintosh IIx, and the newest member, the very versatile Macintosh IIcx. These expandable, high-performance computers can be configured for virtually any task. You choose the amount of RAM, the type of monitor, and the storage capacity of the hard disk, which means you can build a system to handle everything from desktop publishing to scientific and engineering applications.

But no matter which system you choose, you're still getting all the advantages of a Macintosh.

See us today; we'll help you choose wisely.
