The tremendous potentials of the human mind promise

UNDREAMED-OF POSSIBILITIES...

Yet reading or intellectualizing, in themselves, are not enough to bring out all the beauty and greatness within us. "Meditation," said Paramahansa Yogananda, author of *Autobiography of a Yogi*, "is the pickax that pries up all the covers of consciousness and brings forth the fountain of God's ever new joy." For over 50 years Self-Realization Fellowship has been teaching scientific methods of meditation and principles of balanced living that can help you tap the limitless potentials of your inner Self—the source of true insight, ability, and joy. For more information, send for our free booklet.
