**THE ARMY HAS THE FIERCEST HELICOPTER IN THE WORLD...**

It can see in the dark. And attack without being seen. It can strike like lightning. It's fast, smart and mean.

But the AH-64 Apache helicopter doesn't fly by itself. It needs trained aviators capable of handling its awesome technology.

Warrant Officer Flight Training takes ability, dedication and commitment. It's an intensive 40-week training program designed to take the very best people and make them pilots.

If you have a high school diploma, preferably two years of college and can complete Basic Training, we just might have a flight suit your size.

To find out if you qualify for Warrant Officer Flight Training, see your local Army Recruiter today.
