## Product Support Technician

As a Product Support Technician, you will support Microsoft's applications and systems products by answering end-users' calls or answering questions over our On-Line System, (Microsoft's comprehensive support package) helping them to troubleshoot and run our products. Problems range from the very basic to the extremely technical, so you should have the ability to learn a variety of programs in-depth.

If you are about to graduate with a degree in Computer Science, Electrical Engineering, Management Information Systems or other related technical degree, and are interested in operating systems, networking, programming languages or applications software, we want to talk with you.
