

# You've made one smart investment. Now make another.

Obviously, you know a smart move when you see one. After all, you decided to go to college, right?

Well, here's another way to prove your brain power. Drive a Nissan® Sentra.™

The Sentra is anything but one of those depersonalized econo-boxes. The fact is, it comes loaded with personality.

Starting with its advanced 12-valve, 4-cylinder, fuel-injected engine that's as powerful as it is reliable. Plus a roomy interior. Intelligent design.

Not to mention the kind of styling you'd expect from cars that cost thousands more.

So test-drive the Sentra at your Nissan Dealer. And show the world you're absolutely brilliant.

Built for the Human Race.
