

# Grades aren't everything.

At Nissan® we realize there's more to life than just getting to the top. So we took the best features of our cars and trucks and combined them to create a vehicle that can get you just about everywhere.

The Nissan Pathfinder® SE-V6

First of all, its fuel-injected, 3.0 liter, V6 engine is brawny enough to conquer steep hills and muddy dales with an incredible amount of grace. As well as plenty of style.

Whatever road that takes. Since now you can opt for the trail-blazing two-door or the crowd-pleasing four-door just named 4x4 of the year.\*

*The new 4 door Pathfinder. Take the dormitory for a ride.*

And then, just wait until you hop inside. You'll find it's quieter than the library during spring break. Not to mention a lot more fun.

This Pathfinder comes with luxury features like cloth upholstery and cruise control. Plus standard power windows, mirrors and door locks.

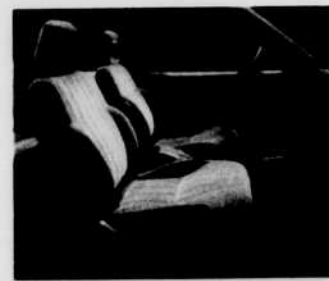

So it feels right at home in the city.

But the only real way to appreciate a Pathfinder is to see one at your local Nissan Dealer.

You'll see, making the grade isn't so tough after all.

*An AM/FM stereo cassette system is standard on the SE. So you can rock while you roll.*

*Both the front and back seats recline, and the back seats can split in half, or just fold up and away.*

Built for the Human Race.®
