

In Touch with Club Sports

Ready to play? The choices are many

It's possible that a few students are lamenting that their favorite activity is not included on the Club Sports roster, and they would kill for the chance to add it to the list. Club Sports is designed to continually accept submissions for new sports, but there is a strict procedure one must follow to be considered.

Lee Sullivan, a Club Sports staff member, said interested parties "have to submit to us things like a proposed competition schedule and a proposed budget."

Because of the rapid growth of Club Sports in recent years, students may not be aware of the broad range of activities now offered in the program. The following list gives the names and numbers of Club Sports student coordinators, whom interested students can contact for more information.

- AIKIDO:** _____
Joseph Toman/485-8569
- BADMINTON:** _____
