chapter, whereas the President's Council deals more with problems, solutions, and their implementation," Jurgens said.

And implement is what both bodies have done quite well this past year.

Panhellenic has helped to establish the new sorority Kappa Delta on campus.

The organization also has plans to promote more awareness among women as well as men with a freshman orientation called Greek 101. The IC has plans for a multi-cultural awareness program entitled Colors.

"One of our main functions is the facilitation of 'greek-wholeness,'" Oberhue said.

"We have the conception of a 'Greek Council' that

would be a joint effort of both men and women, but with a few necessary differences. It would be a total representation of all the chapters," Oberhue said.

And the feasibility of this all-inclusive "Greek Council"?

"I can definitely see it happening in the future," Oberhue said with his trademark enthusiasm.

—Mike Freeman

CHARITIES

Continued from Page 5B

"The UCLA chapter raised \$3,000 and their program was spotlighted nationally, so ours is doing well comparatively," she said.

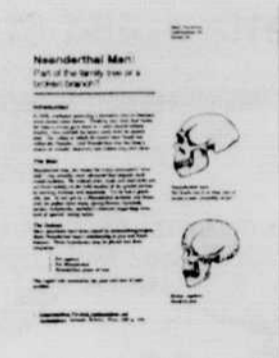

Anchor Splash is made up of daily events such as a "Most Beautiful Eyes" contest and a bake sale. Swimming events and a Mr. and

Ms. Anchor Splash competition are held on the final day of the event, Bardell said.

"This year we opened the competitions to all organizations on campus, instead of just greek people," Bardell said. "No one outside of the greek system really responded, but hopefully we'll get more response next year when it becomes more known to people."

—Darla Jackson

There are three times in your life when you need a Macintosh.

Now

While you're in college, a Macintosh* computer can help you organize your research. Refine your ideas. And present them in a way that truly reflects your brilliance.

And that's only the beginning. Your Macintosh will really make you shine when you take those first steps into the real world. You can design a dynamite resume, keep track of your job prospects in a data base and communicate your sterling background in customized follow-up letters.

Once you've landed your first job, a

Soon

Macintosh can help take you all the way to the top. Because it will help you write, calculate, analyze and present your ideas in the best possible manner.

But to really appreciate what a Macintosh can do for you, you need to come in and try one for yourself. And there will never be a better time in your life to do that than today.

Later

The power to be your best.
