A Wholistic Approach to Nourishing our Community

Promoting Life-Enhancing Food

Our in-store discounts, promotions, and demonstrations feature foods which we feel are particularly life-enhancing rather than simply those which are offered to us at temporarily reduced cost.

Educational Focus

We want to help ourselves and each other to be more informed, more responsible consumers. We are using our print media to discuss ways in which food relates to our personal health, the health of our planet and to social issues, rather than simply discussing the prices of food.

Staple Foods

Certain basic foods are offered at the lowest possible prices at all times. Look for these specially designated "Sundance Staples", tagged throughout the store.

Yum-Oh!

Who said natural foods have to be boring? We will provide recipes on how to create savory, scrumptious whole foods at home. Share the delights of fresh, natural cooking with our easy-to-use recipes. Flavor-test the recipes yourself at frequent in-store tastings.
