You asked for a computer that's real college material.

We heard you.

The ideal computer for college needs certain things. Like a mouse, to make it easy to use. Preloaded software, that'll let you create impressive papers with graphics and spreadsheets. And great tools, like a notepad, calendar and cardfile. It should also be expandable, so it can grow with your needs.

The IBM Personal System/2[®] has all this at a special student price.* And if you buy before

December 31, 1990, you'll receive a **TWA**[®] Certificate entitling you to a round-trip ticket for \$149**/\$249.** Plus a free **TWA** Getaway[®] Student Discount Card application. You'll also get a great low price on the **PRODIGY**[®] service.

The PS/2[®] is perfect for college because you told us just what you needed. And no one knows what it takes to be real college material better than you.

SAFETY

Continued from Page 22

reported confidentially to the dean of students, the Counseling Center, the Student Health Center and the Rape Crisis Network.

Hunter said parents of incoming freshmen should be aware of crime in the campus area.

"There are three things that could happen to your son or daughter in the first week of school," Hunter said. "If they haven't already, they'll have sex for the first time, they'll use drugs or drink for the first time, and they could become the victim of a crime for the first time."

These days, experimenting with sex, drugs and alcohol may be a part of coming of age, but becoming the victim of crime does not have to be. OPS recommends that students expect the worst and have a plan to deal with it; take the extra time necessary to secure belongings; and if students must travel at night, walk or ride along well-traveled, well-lit routes and do not travel alone.

If any student finds himself or herself in trouble or in need of assistance, OPS can be reached at University extension 6666 or via emergency telephones located throughout campus.
