## Robo-student?

No, but she's a SMART student having her eye exam at Rainbow Optics! Muscle-balance and focusing tests in a Phoropter determine problems with two-eye teamwork. Our Automated Field Analyzer tests peripheral vision to detect early stages of glaucoma and other sight-threatening diseases. The Slit-Lamp Biomicroscope and Ophthalmoscope enables the Doctor to detect both outer and inner eye diseases. In fact, our Doctors use 21 different tests and state-of-the-art diagnostic equipment to evaluate your eyes and determine your precise prescription.

Our staff of three Doctors and 31 trained professionals enables us to offer evening and Saturday appointments!

*When you have your eyes checked, get the whole picture, from ...*
