SAVE THE EARTH AT WORK

GREEN RAGE:

Radical Environmentalism
And the Unmaking of Civilization

By Christopher Mates

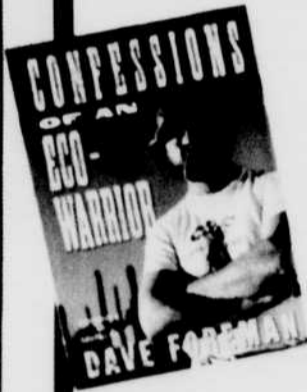

A growing number of people are reluctant to sit still while the environment gets destroyed. Two unique groups have evolved — "radical" environmentalists willing to break the law for their cause and the "green" philosophy deep-ecologists (adopting new values about nature and our responsibility). Both groups are concerned with preserving our natural environment. This emotionally charged and readable book covers the phenomenon of "green rage" — people fighting to save the earth at what ever the price. \$9.95

ALL FINANCIAL INSTITUTIONS...

ARE NOT CREATED EQUAL

If you believe that all financial institutions are the same, perhaps you have not looked into your Credit Union. At U-Lane-O, business is not conducted as usual. We offer a unique approach to financial services. As a cooperative, members have equal vote and say in the management of the Credit Union. The result is an affordable and responsible way of providing financial services.

While financial institutions are not created equal, we happen to believe that all members are. Come visit U-Lane-O and let us show you the Credit Union way of doing business.

Serving U of O students and employees.
