

# MUSGRAVE

Continued from Page 13

had to go against Musgrave four times and coached him in the Japan Bowl, was very impressed with how Musgrave handled the different aspects of an all-star game. James believes Musgrave helped himself in that game.

"The pro people say it

doesn't matter, but it does," James said. "He played really well in Japan. He was pretty accurate considering we were very limited in that we only had two hours to practice together."

The ability to learn a system quickly is something that Bellotti attributes to Musgrave's intelligence. The ability to learn a system quickly could

also be a big difference on how Musgrave adjusts to professional football.

"Bill is extremely intelligent," Bellotti said. "It amazes me, and he's made my life very easy. In fact, he's spoiled me when it comes to coaching quarterbacks."

"He will pick up the system very quickly and will be able to operate within the system," he

said. "A lot of times, that's what takes quarterbacks so long in the pros, is picking up the mental grasp of what's happening around him and what are the best choices for him to make."

The intangible things, such as being able to win games, including being a very intelligent person and player, are aspects all of the scouts like about Mus-

grave, including Kiper.

"Some guys have utilized that and some guys that are very intelligent, book smart, can't do the job on the field," Kiper said. "Some guys who aren't great in school can go out there and be a leader and understand what it takes to lead a team down the field as far as football is concerned."

"Sometimes it doesn't correlate," he said, "but in my mind it doesn't hurt."

One thing all of the scouts and the Oregon coaching staff agree on is that playing for Oregon won't hurt Musgrave's chances of being drafted. It certainly didn't when Miller was taken by the Atlanta Falcons in the first round in 1987.

There have been a lot of NFL players that came out of schools no one had ever heard of. Phil Simms attended Morehead State. Jerry Rice played college football at Mississippi Valley State.

In fact, playing for the Ducks was probably the most beneficial thing for Musgrave for several reasons.

"I don't think Bill could have played in a system that would have given him a greater opportunity to display his abilities," Brooks said. "He had the opportunity to throw the ball a lot; in the pocket, on the move, on play action, on the sprint out, whatever."

"He also had the opportunity to take a team that hadn't had a lot of success and produced success for them," he said. "That ought to show pro scouts something."

The success Musgrave produced in turning Oregon into a national-caliber program will help him in the eyes of the scouts, Bellotti said.

"It's probably helped Bill because I think right now you associate Bill Musgrave with Oregon's success," he said, "as opposed to some places where a great football team with a great reputation ... (the quarterback) may not have to be as good."
